Project for 7th & 8th: LITERARY CUBE & PAPER

This is a visual three-dimensional representation of a novel. All six sides must be covered and only a few necessary words can be used. Before beginning, cover an entire box in order to block out any irrelevant images. The object of this presentation is to use drawings, images, and objects to convey the story of the book. Each side of the box should have a particular focus.

Design the story cube to include the following:

1. a side dedicated to the conflict of the story
2. a side dedicated to the main character
3. a side dedicated to the setting of the book
4. a side dedicated to the theme or universal lesson learned in the book
5. a side dedicated to a specific scene from the story (favorite, impactful, memorable, etc.)
6. a side with an original cover idea for the book – this should include the title, author, a sentence to capture the reader's attention, and your name.

On a separate sheet of paper, explain each side except the original cover idea side.

Each explanation should be approximately 100 words for a five paragraph, 500 word total.
