

Middle School

Grade 5-6 Summer Reading

2023 Assignment

Instructions:

Students will read the assigned book and complete the project. They will read the assigned scripture and write a paragraph in response to the essential question, using the scripture as evidence.

Some Tips:

Plan out your reading strategy. Know what will occupy your time during the summer so that you can schedule your reading to get it accomplished with enough time to complete the project and the paragraph. Make mini goals that are easier to accomplish. Decide how many pages you can reasonably read each day or week, and break up your reading and project/writing work into manageable chunks.

Know what needs to be explained in your paragraph and added to your project before you read. Knowing what will be required of you in your writing and on your project before you start reading will help you find ideas and answers while you go. This will save you time because you'll find things as you read instead of needing to go back through after you're done.

Do the project as soon as you finish the book. Don't save all of that work until the last minute. Complete the project when the book is still fresh in your mind and you have more free time to get the project done.

Write the paragraph as soon as you finish the scripture reading. It's better to do this sooner instead of waiting to write your paragraph until just before school starts. Write the paragraph as soon as you finish reading and the scripture is fresh in your mind.
