

SUMMER MATH REQUIREMENT: Students entering Grade 7

At the close of the school year, your child will bring home a summer math packet. In order to keep your child's math skills sharp over the summer, **students are required to complete this packet**. Points earned from the packet will be entered as a grade for the first 9 weeks of the new school year. **The completed packet should be brought to school no later than Friday, August 16, 2024.**

Copies for new students enrolling at CCA will be available in the office after June 1, 2024. The packet will also be available in our summer Google Classroom beginning Tuesday, May 28.

ADDITIONAL RESOURCES:

In order to help your student prevent summer learning loss in regard to math concepts, we strongly suggest students spend time practicing the skills they have learned the previous year. The following are some additional resources that you might find helpful.

- IXL offers a "Summer Boost" program that will help solidify the previous year's concepts and encourage success in the upcoming school year. You can find this program on the IXL site under Skill Plans.
- Addiemath.com is a free online tool that allows students to practice their fact fluency skills at their own pace.
- In addition to MAPPERS, Khan Academy has grade-level programs you might want to check out. They are titled "Getting Ready for 5th Grade", "Getting Ready for 6th Grade", and "Getting Ready for 7th Grade". These programs are designed to review the previous years' skills and will help prepare students for the upcoming school year.
